2017-18

7.2.1 Best Practices

1. The creativity of especially of girl students was sharpened by conducting so many art events at the intra and inter- college level. The purpose was to sharpen the creative mind and creative skills of the students. On the spot painting, collage, poster making and rangoli making competitions were organized. The creative skill imparted to the students by organizing art workshop in the college during the previous session was taken further. The students were given a chance to exhibit their creative talent by making them participate in various art events. The students did extremely well in these art events and bagged many prizes.
2. The creation of science block in the college was quite a land mark for this rural college and was the dire need of the society for science aspirants. M.A. Geography was launched from the previous session and now it was time to initiate science stream in the college. The college administration with due support from the Department of Higher Education Panchkula made advance preparation for initiating science classes from the next session 2018-19. The labs got equipped with scientific instruments and the advance sanction was sought from the higher authorities for the requisite teaching faculty. The status of the college grew with the advent of science stream from the coming session.
